Introducing AraTM Bath Collection

ARA™ BATH COLLECTION

Perfect for today's modern bath, the new Ara™ Collection brings to life the very definition of minimalism. Available in a complete family of faucets and tub spouts in both enclosed and channel options as well as showers and handshowers, Ara's clean lines are subtle, yet striking. And just as appealing are the smart innovations inside.

H₂Okinetic™ Technology controls the water's shape, velocity and the thermal dynamics, giving the feeling of a high-flow spray with a fraction of the water.

Water-Efficient Product

Lavatory Faucets: flow rate of 5.7 l/min. versus Industry Standard ASME A112.18.1/CSA B125.1 of 8.3 l/min.

Showerheads and Handshowers: flow rate of 5.7 l/min. or 7.6 l/min versus Industry Standard ASME A112.18.1/CSA B125.1 of 9.5 l/min.

HydraChoice Body Sprays don't pop out of the shower until you pop in. They're part of our Hydrachoice Body Spray System, which lets you adjust the angle of the spray by 50° in any direction. That adjustability lets individuals customize their shower experience for maximum comfort (and really comes in handy when one member of the family is 5'6", and another is, say, 6'2").

Flush-mount sprayheads extend automatically when water is turned on and can be pushed in when not in use.

Adjustable 50 degrees in any direction allows you to aim the water exactly where you want it.

Flow Rate: 3.8L/min@80 psi

INSPIRED BY TODAY'S TRENDS, YET TIMELESS IN APPEAL.

In the architecture and design world, contemporary homes and spaces are becoming increasingly geometric, featuring sharply defined edges and angles.

The Ara™ Collection mirrors these trends, with streamlined, rectangular faucets and showers. Its sleek design also gives the collection an elegance that's sure to endure through today's trends and tomorrow's.

Add the Ara™ Collection to your bathroom and add stunning simplicity to your modern home.
