Introducing Kami® Bath Collection

### Kami® Bath Collection

Give a contemporary look to your bathroom with the Kami Collection. Available in a complete family of faucets and tub spouts with coordinating showerheads, body spray, handshower and accessories, Kami offers a full solution with clean lines outside and sophisticated smart solutions inside.

- Swivel Aerator - Gives users a fully customizable design that allows you to adjust the water flow up to 6-degrees in any direction.
- H<sub>2</sub>Okinetic™ Showers - H<sub>2</sub>Okinetic™ Showers create the feeling of more water, without using more water. It's all thanks to large water droplets moving in a unique wave pattern that provide warmer, more drenching, and more intense coverage for a totally relaxing shower experience.
- HydraChoice™ - Create a truly custom shower by installing the HydraChoice™ Body Spray System. The flush-mount designs offer adjustability and the ability to change spray options to customize your shower experience even after installation.
